Registration Statement on Form F-1

Prospectus Summary
Overview, page 1

1. We note your disclosure that you believe that your flexible approach to the clinical and manufacturing development of VLA2001 will facilitate your ability to meet the needs of future customers, including playing a key role in providing supply for any potential booster programs. Please balance your disclosure in this section with the risk identified on page 17 that you may need to redevelop your manufacturing process to produce a booster dose, which could result in additional time and expense and divert your manufacturing resources away from production of other products.

2. Please remove references to "positive" data from your Phase 1/2 clinical trial of VLA2001 here and on pages 21, 124, 125, 127, 147 and 148 as this may create an inference that your vaccine is more likely to be found safe and effective, which is a determination solely in the authority of regulatory agencies such as the FDA.
